**Hygge[®]
flames**

the fireplace reimagined

Combining Belgian
craftsmanship and
a Danish ethos,
effortless cosiness
and sustainability
find expression in
Hygge Flames.

We've reimagined the fireplace —

All your Hygge Flames need is **electricity**.

Hygge Flames,
the fireplace for the wellbeing
of the future generations.

PIONEERING

- › lifelike virtual fireplace – the only true alternative to the traditional fireplace
- › 15 hyper-realistic holographic 3D visuals of woodfire flames, enchanting sparks, drifting smoke and glowing embers
- › a combination of real flame images and HD video from 2 screens, semi-transparent mirror and a realistic burning logset to create the perfect illusion of a wood fire
- › natural logset lit from the inside using the colour LED lighting technology® – to simulate flames emanating from the logs and glowing embers
- › 2 built-in speakers producing the realistic sound of a crackling fire
- › fully retractable mirror®
- › remote control

PERSONAL

- › the beauty of a woodfire, adapted to modern life
- › select your preferred image of the flames and glow of the embers, from a smooth burn to a roaring fire
- › backwall with bricks, black ribbed panels or plain steel
- › each logset is a unique handcrafted creation
- › the opportunity to further customize your Hygge Flames by adding some ashes and coals as a finishing touch to the logs
- › mastery of sound: from silence to natural crackling
- › models available as built-in, wall mounted, freestanding or moveable
- › personalise your Hygge Flames by selecting from a range of standard or custom-made designs, each crafted from high quality materials including blue laminated, black, rusted or powder coated steel; or fully customize your own unique masterpiece.
- › even when it's turned off, it looks like natural logs waiting to be ignited
- › soothing and relaxing ambiance, anytime of the year

ECO

- › no wood, no gas, no combustion
- › zero emissions, zero dust, zero CO₂
- › low power consumption

SAFE

- › no fire hazards, no hot embers, no risk of CO poisoning
- › zero burns – children and pets can play in absolute safety
- › no danger to clients in commercial or public spaces

EASY

- › **electric** fireplace – only requiring a simple electrical outlet connection
- › no chimney, no air inlet, no gas line, no fireproof materials
- › compact unit, space-saving
- › easy to install in any room or into your existing wood or gas fire
- › low maintenance – no soot, no ashes, no wood-storage
- › when moving, simply unplug

MODEL

Pejs

Built-in: Easily installed as a standard unit. A simple electrical outlet connection is all that is required. No chimney, fireproof materials or other specification to consider.

A x B: 760 mm x 400 mm

This is not simply a fireplace, but a **Holo-3D flames®** fireplace. Hygge Flames offers the ultimate interior experience, fostering cosiness and moments of joy all in complete harmony with the environment.

Personalize your Hygge Flames by selecting from a range of standard or custom-made fireplaces

Surrounds: each crafted from blue laminated, black, rusted or powder coated steel.

As the “heart” of any space, anywhere, this fireplace truly provides the ‘hygge’ atmosphere.

'hygge' **Happiness, the Danish way**

“Hygge is stepping back from the rush of daily life to make time for those moments of wellbeing.”

John De Smecht, co-founder
